Predict the Future

ASC27

ASC27 s.r.l.

Innovative **StartUp** by **vocation**. **Innovative** by its Foundation and its Foundations.

With operational headquarters in Rome (IT) and International Team, ASC27 s.r.l. it has a SW Development Team, Data Scientist and Annotator dedicated to the branch of software known as Artificial Intelligence. Dealing with Deep Learning, Machine Learning, One Shot Prediction and Long Term Forecasting, ASC27 s.r.l. has gained experience and Patent Pending software components in the area of Cognitive Intelligence and Media Analytics.

In each project it faces, the development team of ASC27 s.r.l. has at least 100 years of operational experience with him. << We create KNOWLEDGE >>. ASC27.

Mystic

H a v e   a   l o o k   t o   t h e   f u t u r e

Mystic it's a forecasting, AI-Powered Technology, that enable the Future Prediction using data-indipendent techniques. Whatever your data means for you and wherever they come from, Mystic is able to collect your historical series to create short and long term predictions on them with an awesome accuracy.

You may not already know the information that are locked in the data you are already storing. Using Mystic you will be able to unleash the forecasting value hidden in them.

1 ▶ ## Forecasting

Mystic is able to predict the Far-Future. Handling 3 months of your data Mystic is able to forecast the next 3.

2 ▶ ## Seasonality

Mystic is able to consider the data seasonality in terms of recurring days, recurring bank holidays, etc

3 ▶ ## Understanding

Looking at the future predicted on the data you already have, you will be able to understand more about their power

4 ▶ ## What If

Using What-If conditional statements, you'll be bale to see how the future could be shaped before you change your process effectively.

ASC27

PREDICTION

The Mystic accuracy in the prediction of the future it's impressive. Whatever your data means for your business, Mystic will find hidden models and trends inside them to predict how the future will be. No matter what the data have measured in the past, Mystic is able to forecast the next emerging trends in them.

DATA AGNOSTIC

Mystic has been successfully applied in e-commerce sell-data prediction, broadcasters audience prediction, number of people in public spaces prediction, IoT sensor derived hardware disruption and many others.

SHORT and FAR FORECASTING

Mystic is able to predict the immediate near future and the long term trends in your data.

KNOW YOUR CUSTOMERS

But, before they come

With Mystic you'll be able to predict when and how customers will come to your business.

KNOW THE DAMAGES

But, before they come

With Mystic you'll be able to predict when a component may be damaged

KNOW THE NEW TRENDS

But, before they come

With Mystic you'll be able to predict the next trends

ASC27

WHAT-IF STATEMENTS

As Mystic has been trained on your data and as soon as the prediction models will be ready, you can start to deal with the Mystic What-IF features. In the Mystic simulation environment you'll be able to change data and variables in the present time to see with will be the impact on the next future, everything before you really change something in your business.

PROTECT THE LEADERSHIP

Mystic is largely used by leadership owners to protect their position in the market. Constantly monitor the Mystic forecasts, every business will be able to early identify competitors action and take the proper action to protect its leadership on the market.
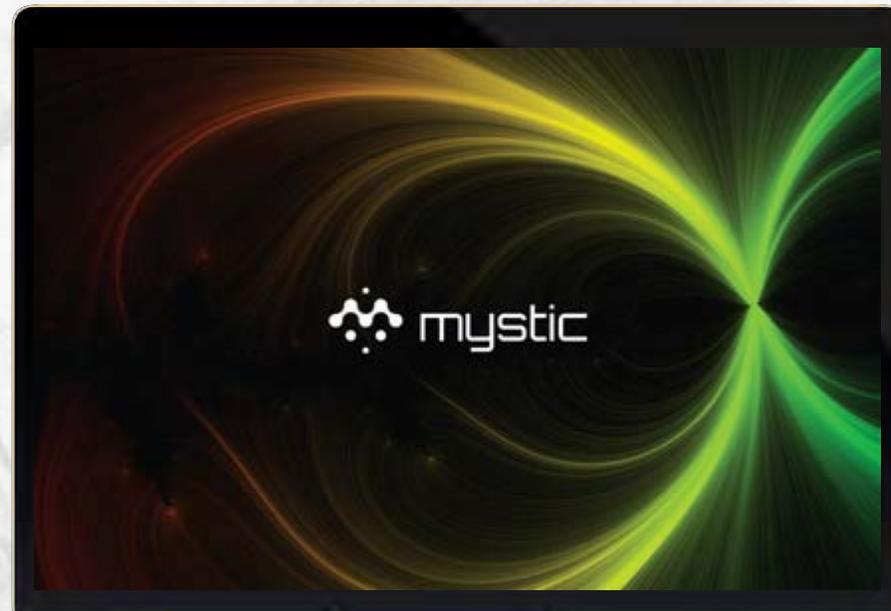

ASC27

FORECAST THE NEXT FUTURE

Mystic, AI-Fueled Future Forecaster

Cloud Ready

Running in the Cloud, Mystic is able to handle how many data your business need. No Limits.

Accuracy

As Mystic has completed its training, an accuracy of 97.5% on short term and of 95.5% on long term predictions has been generally expected.

Zero-Time Setup

As the data are loaded in Mystic, they are ready to be forecasted, without any extra-setup or intervention.

Proven

Mystic come from a long way. It was introduced in many products of ASC27 platform, now available as a self-standing service.
